Definitions:

- All references to "per share" mean "per share executed."
- "ADAV" means average daily added volume calculated as the number of shares added and "ADV" means average daily volume calculated as the number of shares added or removed, combined, per day. ADAV and ADV are calculated on a monthly basis.
 - The Exchange excludes from its calculation of ADAV and ADV shares added or removed on any day that the Exchange's system experiences a disruption that lasts for more than 60 minutes during regular trading hours ("Exchange System Disruption"), on any day with a scheduled early market close and on the last Friday in June (the "Russell Reconstitution Day").
 - Routed shares are not included in ADAV or ADV calculation.
 - With prior notice to the Exchange, a Member may aggregate ADAV or ADV with other Members that control, are controlled by, or are under common control with such Member (as evidenced on such Member's Form BD).
- "Options Step-Up Add TCV" for purposes of equities pricing means ADAV as a percentage of TCV in January 2014 subtracted from current ADAV as a percentage of TCV, using the definitions of ADAV and TCV as provided under the Exchange's fee schedule for BATS Options.
- "Setter Add TCV" means average daily added volume calculated as the number of displayed shares added that establish a new NBBO as a percentage of TCV.
- "Step-Up Add TCV" means ADAV as a percentage of TCV in the relevant baseline month subtracted from current ADAV as a percentage of TCV.
- "TCV" means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.
 - The Exchange excludes from its calculation of TCV volume on any day that the Exchange experiences an Exchange System Disruption, on any day with a scheduled early market close and the Russell Reconstitution Day.
